

Ethernet Over Coax (EOC) Terminal

This EOC (Ethernet over Coax) terminal transmits Ethernet signals over coaxial cables. It allows network connectivity through existing coaxial infrastructure by using a coaxial connector for the coax network, and RJ45 Ethernet ports for connecting to local network devices.

Product Overview

Ethernet Over Coax (EOC) Terminal

The ANS1002 is a specialized EOC module designed for seamless integration into set-top boxes. It provides a reliable transport solution for interactive digital television signals and network data over existing coaxial infrastructure. By utilizing three full-duplex Fast Ethernet interfaces, this terminal ensures robust connectivity for both local network devices and internal set-top box communication.

Technical Specifications

Fast Ethernet Interfaces	3 ports
Duplex Mode	Full-duplex
Primary Application	EOC Module, Set-top Box Integration, Digital TV Signal Return

Hardware Details

Board Version	S400-400200 VER
Release Date	2010.11.01
