

# Evaporative Air Cooler for Home Use

This evaporative air cooler provides a rapid cooling system for home use. It features three high-efficiency cooling pads and a powerful motor to deliver a large air volume.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Home Cooling Solution

The HS-528 Evaporative Air Cooler is designed to provide powerful and energy-efficient cooling for residential spaces. Utilizing a high-volume airflow of 8000m<sup>3</sup>/h and a substantial 50L water tank, it offers an effective alternative to traditional air conditioning for medium-sized rooms. Its portable design with mechanical controls ensures reliable performance and ease of movement throughout the home.

## Technical Specifications

### Control System

Mechanical

### Power Supply

220V / 50Hz

### Rated Power

150 W

## Physical Dimensions

### Product Size

520 x 340 x 1080 mm

### Net Weight

9.8 kg

### Gross Weight

12 kg

## Logistics & Installation

Applicable Area	25-40 m <sup>2</sup>
Packaging Dimensions	560 x 380 x 1055 mm
40HQ Loading Capacity	317 pcs

## Features

### Key Features

- Evaporative cooling technology
- Adjustable fan speeds
- Directional louvers for airflow control
- Portable design with casters
- Large capacity water reservoir
