

Evaporative Digital Air Cooler with Multiple Fan Speeds

This digital air cooler provides efficient cooling for homes or offices. It utilizes evaporative cooling technology, drawing warm air through a moistened filter to deliver cool, refreshing air.

Product Overview

Efficient Evaporative Cooling

This digital air cooler is designed to provide effective climate control for indoor spaces. Utilizing advanced evaporative cooling technology, it draws warm air through a moistened filter to deliver a refreshing breeze. With a large 20L water tank and automated features like a 15-hour timer and horizontal oscillation, it offers both convenience and sustained performance for professional or residential environments.

Performance Metrics

Maximum Airflow Volume

880 m³/h

Max Fan Volume

Maximum Fan Speed	16 m/s
-------------------	--------

Operation & Control

Fan Speed Settings	3
Timer Duration	15 hours
Oscillation	Automatic horizontal

Water System

Water Tank Capacity	20 L
Continuous Runtime	10 hours

Safety Features

Safety Protections	Auto shut-off pump, Water shortage protection
--------------------	---
