

Evaporative Portable Air Cooler

This evaporative air cooler provides efficient cooling through water evaporation. It features a multi-speed fan, adjustable louvers for directional airflow, and a water tank for extended operation.

Product Overview

Efficient Portable Cooling Solution

This evaporative portable air cooler is designed to provide efficient indoor climate control through advanced water evaporation technology. It features a versatile micro-computer control system, allowing users to easily adjust settings via remote control. With added air purification features and a convenient timer, this unit offers a comprehensive solution for personal cooling needs.

Control & Operation

Control System	Micro-computer remote control
Timer Range	0.5 - 7.5 hours

Performance

Fan Speed Settings	3-stage (High, Medium, Low)
Airflow Control	Multi-angle free-swinging

Features

Air Quality Features	Deodorizing, Filtration, Purification
----------------------	---------------------------------------

Safety & Maintenance

Safety Systems

Dry automatic alarm system

Accessories

Included Components

- Remote Control
- Ice box
