Product Overview

High-Performance Ground Engaging Tools

These excavator bucket teeth, pins, and adapters are engineered for heavy-duty construction and mining applications. Designed to withstand significant impact and high-abrasion environments, the assembly ensures optimal material penetration and extended service life. Precision-machined components provide a secure, stable fit to minimize downtime and maximize digging efficiency.

Compatibility & Scope

Supported Equipment Types

- Excavator
- Loader
- Bulldozer
- Electrical Shovel

Compatible Brands

CAT, KOMATSU, HITACHI, JCB, KOBELCO, VOLVO, LIEBHERR, BUCYRUS, P&H, DOOSAN, SANY, SDLG, XUGONG, LIUGONG, ESCO, MTG

Technical Specifications

Available Component Types

Tooth Tips • Pins & Retainers • Adapters • Side Cutters • Ripper Tooth & Shanks

Available Tooth Profiles

- Dirt Tooth
- Tiger Tooth
- Twin Tiger Tooth

Reference Part Numbers

Part ID	Description
61E7-0100	Adapter
61E7-04600	Weld on Adapter
61N4-31200	Weld on Adapter
E161-3017	Weld on Adapter
61ECE-01330	Rubber Lock
66NB-71310	Reference Tooth
41F1	Reference Tooth
