

Excavator Bucket Tooth for PC200

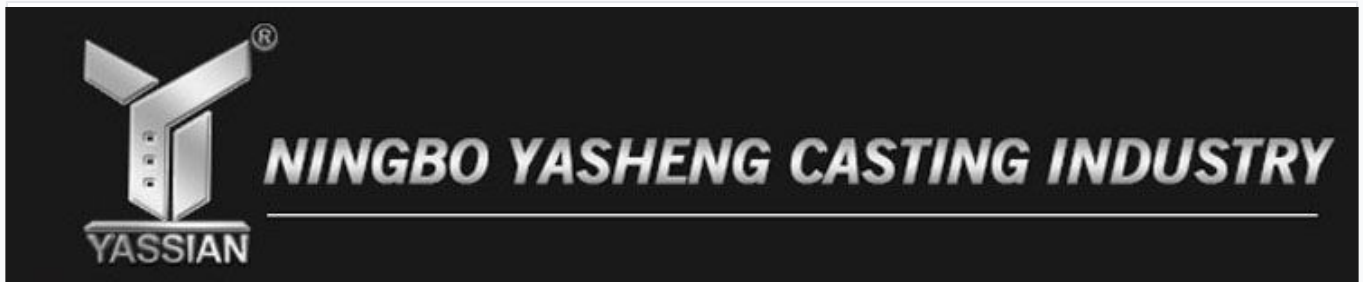

This bucket tooth is designed for KOMATSU PC200 excavators. It ensures optimal digging performance and long-lasting wear resistance.

ADDITIONAL IMAGES

Overview

Precision-engineered bucket tooth designed for optimal penetration and durability.

High-Performance Excavator Bucket Tooth

This bucket tooth is specifically engineered for PC200 series excavators, providing a precise fit and optimal digging efficiency. Manufactured from high-strength alloy steel, it features excellent impact toughness and wear resistance to withstand demanding construction and mining environments. With a focus on durability, this component helps reduce downtime and enhance overall machine productivity.

Technical Specifications

Net Weight

- 5.8 KG
- 6.2 KG
- 6.6 KG

Part Number	207-70-14151
-------------	--------------

Material	Alloy Steel
----------	-------------

Hardness	HRC 47-52
----------	-----------

Compatibility

High-quality construction machinery part ensuring long service life in tough conditions.

Compatible Machines

Komatsu PC200, Caterpillar, JCB, Hyundai, Doosan

Manufacturing & Quality

Manufacturing Advantages

- CNC drilled holes for accurate bolt matching
- Automatic electrostatic spray painting finish
- Smooth and professional surface finish
- Rigorous wear-resistance testing

Quality Certifications

ISO9001:2015 • SGS

Service & Logistics

Warranty

24 Months

Quality Guarantee

Logistics Details

Parameter	Details
Minimum Order Quantity	10 pieces
Delivery Time	30-35 days
Packaging	Plywood case
Loading Ports	Ningbo, Shanghai, Guangzhou, Yiwu

Accepted Payment

Ali Trade Assurance, T/T, L/C
