

Excavator Bucket Tooth Lip Shroud

This excavator bucket tooth lip shroud offers high wear resistance for enhanced production efficiency. Its durable construction provides high reliability and fatigue resistance in demanding environments.

Product Overview

Heavy-Duty Mining Protection

This excavator bucket tooth and lip shroud is engineered for demanding mining operations, providing essential protection against extreme wear and abrasive conditions. Designed for durability, the shroud features a reinforced body to enhance the structural integrity and longevity of the bucket assembly. By minimizing downtime and ensuring consistent material penetration, this component helps maintain peak operational productivity in harsh work environments.

Compatibility

Compatible Excavator Series

RH30E/D/F, RH40E/D/F, RH90C, RH120E, RH170B/E, RH340

Components

Available Wear Components

- Bucket Teeth
- Tooth Pins
- Tooth Adapters
- Wing Shrouds
- Corner Wear Shoes
- Wear Buttons
- Wear Blocks
- Wear Caps

Key Features

Design Advantages

Reinforced Body • High Abrasion Resistance • Optimized Penetration • Easy Installation
