

Excavator Tooth Tip

This excavator tooth tip provides high wear resistance for increased production efficiency. It is hard, tough, and offers high fatigue resistance and reliability.

Product Overview

Heavy-Duty Excavator Tooth Tips

These high-quality bucket tooth tips are engineered for demanding excavation and earthmoving applications. Constructed from premium alloy steel, they offer exceptional wear resistance and extended service life in harsh environments. Designed for a precise fit and secure locking, these components ensure optimal digging performance and reduced maintenance downtime.

Compatibility

Compatible Equipment Types

Excavator, Loader, Bulldozer, Electrical Shovel

Product Details

Material & Build

- High-quality alloy steel construction
- Engineered for heavy-duty earthmoving
- Optimized for wear resistance
- Secure locking mechanism

Available Variants

Variant Type	Feature Focus
Standard	General excavation
Long/Heavy	Extended service life
RC Series	Reinforced/Rock
WTL/TL Series	Specialized profiling
