

Explosion-Proof Electric Winch

This electric winch is designed for use in environments where there is a risk of explosion. It features a robust construction and an explosion-proof enclosure.

Overview

High-Performance Explosion-Proof Winch

This heavy-duty electric winch is engineered specifically for marine and industrial applications where safety is paramount. Featuring a robust construction and a high-torque motor, it is encased in an explosion-proof housing to ensure reliable operation in hazardous environments. It is an ideal solution for demanding lifting and pulling tasks on ships, offshore platforms, and industrial sites, complete with integrated overload protection.

Technical Specifications

Model Range

- DB-30/0.25
- DB-400/0.13

Safety Features

Explosion-Proof Enclosure, Overload Protection, Integrated Control Panel

Applications

Suitable Environments

Marine • Offshore Platforms • Hazardous Industrial Sites • Ship Deck Operations
