Product Overview

High-Performance Synthetic Round Sling

This Eye and Eye Synthetic Round Sling is engineered for heavy-duty lifting and rigging applications. Constructed from 100% high-tenacity polyester, it offers superior strength, flexibility, and load distribution compared to traditional wire rope alternatives. Designed to comply with EN1492 standards, this sling ensures reliable performance in diverse industrial, construction, and manufacturing environments.

Technical Specifications

Working Load Limit (W.L.L)

6 T

Capacity

Material	100% High Tenacity Polyester
Safety Factor	7:1
Approximate Width	90 mm
Length	3 M
