

F-Type Coaxial Cable Right Angle Adapter

This right-angle adapter provides a 90-degree connection for F-type coaxial cables. It is designed to minimize stress on cable connections in tight spaces, ensuring a secure and reliable signal transfer.

Overview

Compact Signal Connectivity

This right-angle adapter provides a convenient 90-degree connection for F-type coaxial cables, specifically engineered to minimize stress on cable connections in tight spaces. By allowing cables to lie flush against equipment, it ensures a secure and reliable signal transfer for your setup. It is an ideal solution for connecting TVs, satellite receivers, cable boxes, and other media devices where physical space is limited.

Technical Specifications

Common Applications

- Televisions
- Satellite Receivers
- Cable Boxes

Construction

Durable Materials • Space-saving Design

Connector Configuration

F-Type Female, F-Type Male

Angle

90-degree
