

Fabric Shaver with Lint Collection

This compact, handheld device removes fuzz, lint, and pills from clothing and fabrics. It features a rotating blade system concealed behind a protective mesh screen and a transparent lint collection container.

Product Overview

Compact Fabric Care Solution

This handheld fabric shaver is designed to efficiently remove fuzz, lint, and pills from various clothing items and textiles. It features a safe, rotating blade system protected by a mesh screen, ensuring fabric protection during use. The device includes a transparent collection container, allowing users to easily monitor lint accumulation and empty it when necessary.
