

Fabric Steamer for Clothes

The Garment Steamer is gentle on delicate fabrics, and works on heavier materials like drapes and upholstery. It freshens fabrics, releases wrinkles, and reduces dust mite allergens.

Product Overview

Professional Garment Care Solution

This high-performance fabric steamer is designed for efficient and convenient wrinkle removal across all fabric types. Featuring a telescopic pole and rolling casters, it offers exceptional maneuverability and customizable height for comfortable use. With rapid heat-up times and continuous steam capabilities, it provides a reliable solution for maintaining fresh, wrinkle-free garments in both home and professional settings.
