Product Overview

Professional Grade Fiberglass Axe

This high-performance axe is engineered for durability and efficiency in demanding outdoor environments. Featuring a robust 45 carbon steel head that undergoes precise drop-forging and heat-treatment, it meets stringent DIN and BS standards for reliability. The ergonomic handle, constructed from a composite of PP, TPR, and fiberglass, ensures a secure grip while significantly reducing vibration during heavy-duty tasks like chopping and log splitting.

Head Specifications

Compliance Standards

DIN Standard • BS Standard

Head Material	45 Carbon Steel
Manufacturing Process	Drop Forged, Heat-Treated

Handle Construction

Handle Materials

- Polypropylene (PP)
- Thermoplastic Rubber (TPR)
- Fiberglass

Key Handle Features	Ergonomic Design, Vibration Reduction, High Strength
