

Five-Blade Indoor Ceiling Fan

This five-blade ceiling fan is designed for indoor use, providing both cooling and aesthetic appeal. It features a brass-finished motor housing and wood-finished blades, complementing traditional and transitional interior styles.

Overview

Elegant Indoor Cooling Solution

This five-blade indoor ceiling fan combines functional cooling with a sophisticated aesthetic designed to elevate traditional or transitional interior spaces. Featuring a high-quality brass-finished motor housing paired with rich wood-finished blades, it serves as both a practical appliance and a decorative centerpiece. The inclusion of ornate blade brackets and a decorative canopy ensures a cohesive, polished look suitable for residential or commercial indoor environments.
