Product Overview

Description

High-quality oil seal designed for the shaft of FK40 bus air conditioner compressors.

High-Performance Shaft Seal for FK40 Compressors

This professional-grade shaft oil seal is specifically engineered for FK40 bus air conditioner compressors. Designed to provide a superior sealing effect, it effectively prevents oil leakage and refrigerant loss, ensuring the optimal performance and longevity of your HVAC system. Its durable construction is built to withstand the mechanical stress and temperature variations common in automotive applications, offering a reliable solution for maintenance and repair.

Technical Specifications

Product photo

Precision-engineered shaft oil seal for effective leakage prevention.

Model Number	HFBK-40
Material	CA, Ni-Resist, HNBR
Compatible Compressor	BK 40 Compressor
Dimensions	Standard size

Service & Quality

Secure packaging with rust-proof protection to ensure product integrity during transport.

Service Highlights

- Professional OEM service
- Easy replacement design
- Customized mold available
- Quality management system
- Free technical drawings with mass production

Logistics & Support

Category	Details
Payment Methods	T/T, Western Union, PayPal
Shipping Options	EMS, FedEx, DHL, TNT, UPS
Packaging	Rust-proof paper, specialized small boxes

FAQ

Frequently Asked Questions

Question	Answer
Customization	ODM and OEM services available
Quality Control	Raw material inspection, 100% test before packing
Warranty	1 year quality guarantee
After-sales	Video technical support and spare parts replacement
