

Flexible Metal Hose USB LED Lamp

This LED lamp features a flexible metal hose and USB power connectivity. It provides adjustable and focused lighting, ideal for use with computers and laptops.

Product Overview

Versatile Flexible USB Lighting

This LED lamp features a durable metal hose neck that allows for precise positioning of the light source, making it an ideal accessory for professional workstations. Powered via a standard USB connection, it is perfectly compatible with laptops, computers, and power banks. Its compact and portable design ensures reliable, focused illumination wherever your workflow requires it.
