

Floor Sweeper with Rotating Brush

This floor sweeper features a silver and black body with a rotating brush mechanism. It is designed for efficient cleaning of hard floor surfaces and includes a handle for easy maneuverability.

Product Overview

Efficient Manual Cleaning Solution

This floor sweeper is designed for rapid and efficient cleaning of hard floor surfaces. Featuring a robust rotating brush mechanism and a compact, maneuverable frame, it excels at reaching under furniture and into tight corners. As a manually operated, cordless device, it provides an environmentally friendly and convenient solution for maintaining clean floors without the need for power outlets or batteries.

Technical Specifications

Operation	Manual
