

Fluid and Gas Meter

This meter accurately measures the flow of both liquids and gases. It is suitable for various industrial and environmental monitoring applications.

Product Overview

Precision Fluid and Gas Measurement

This high-performance meter is engineered for accurate monitoring and control of both fluid and gas systems. Designed for reliability in demanding environments, it ensures consistent performance and precise data collection. Its robust construction makes it an ideal solution for industrial applications where measurement accuracy is paramount.

Technical Specifications

Device Type	Fluid and Gas Meter
Application Scope	Fluid Measurement, Gas Measurement, Industrial Monitoring
