

Fluid Control Ball Valve

This ball valve is designed for reliable shut-off and control of fluid flow in various industrial applications. Its compact design allows for installation in confined spaces, making it a versatile choice for diverse plumbing and fluid handling systems.

Product Overview

Industrial Fluid Control

This ball valve is engineered for reliable shut-off and precise control of fluid flow across various industrial applications. Constructed from durable metal, it features a robust handle for easy operation and is designed to provide a tight, leak-proof seal. Its compact form factor makes it a versatile solution for plumbing and fluid handling systems in confined spaces.

Technical Specifications

Key Features

Compact Design • Durable Metal Construction • Leak-Proof Seal • Robust Handle

Suitable Media

Water, Oil, Gas

Installation

Suitable for confined spaces
