

Fluted Non-Stick Tart Pan

This fluted tart pan is made from heavy-gauge carbon steel for even heating and durability. The non-stick coating ensures easy release and cleanup, ideal for baking tarts, quiches, and pies.

Product Overview

Professional Tart Baking Solution

This fluted tart pan is crafted from heavy-gauge carbon steel, engineered for even heat distribution and exceptional long-term durability. The premium non-stick coating ensures effortless food release and simplified cleanup, making it a reliable choice for high-volume kitchen environments. Its classic fluted design provides an elegant finish to tarts, quiches, and pies, suitable for both amateur and professional baking applications.
