

Foldable Car Rear Seat

This foldable car rear seat is designed to maximize storage. It allows users to expand cargo capacity by folding down the rear seats.

Product Overview

Foldable Car Rear Seat

This foldable rear seat solution is designed to enhance the versatility and utility of your vehicle's interior. By allowing the rear seats to fold down seamlessly, it significantly expands the available cargo space, making it ideal for transporting larger items. This feature ensures a balance between passenger comfort and practical storage capacity for everyday use.

Compatibility & Features

Core Functionality	Foldable Design, Cargo Expansion, Rear Interior Integration
