

Foldable Electric Bicycle with LED Headlight

This electric bicycle has a foldable frame for convenient storage and portability. It features a rear-wheel drive system, comfortable suspension, and an integrated LED headlight with a horn for safety.

Product Overview

Compact Mobility Solution

This foldable electric bicycle is designed for convenience and urban mobility, featuring a compact, easy-to-store frame that simplifies transport. It is engineered with a reliable rear-wheel drive system to provide enhanced control and stability for the rider. Equipped with a built-in suspension system and an integrated LED headlight with a horn, this bike ensures a smooth, comfortable, and safe riding experience, even during nighttime travel.
