Overview

Compact Urban Mobility

The X6 electric scooter features an innovative, lightweight design inspired by dragonfly bionics, making it exceptionally portable and suitable for urban commuting. It offers a unique removable battery system that allows for convenient charging and extended range, while the 5-step folding mechanism ensures it can be easily stored in a backpack or small spaces. With integrated safety features like front LED lighting and horn alerts, along with smart cruise control, this scooter provides a reliable and enjoyable riding experience for daily travel.
