

Folding Hand Saw with High-Carbon Steel Blade

This folding hand saw features a curved handle with a textured grip for comfortable and secure handling. The blade is made of high-carbon steel for strength and durability in cutting wood and other materials.

Product Overview

Professional Folding Hand Saw

This high-performance folding hand saw features a robust high-carbon steel blade designed for exceptional strength and durability. Its ergonomic, textured handle ensures a secure and comfortable grip during intensive use, making it an essential tool for professional gardening, camping, and outdoor applications. The integrated folding mechanism allows for safe, compact storage and easy portability without sacrificing cutting efficiency.

Technical Specifications
