

Foot Operated Film Sealing Machine

This foot-operated film sealing machine is designed for sealing various types of plastic films. It features adjustable sealing temperature and time, ensuring airtight and secure seals.

Product Overview

Professional Film Sealing Solution

This foot-operated film sealing machine is designed for high-efficiency packaging of various plastic films. Featuring a durable metal frame and hands-free foot pedal operation, it is engineered to enhance productivity in busy environments. It provides adjustable sealing temperature and time settings to ensure secure, airtight, and tamper-evident seals for food, pharmaceuticals, and industrial goods.

Technical Specifications

Model Number	FR-500
Operation Method	Foot-operated
Sealing Capabilities	Airtight, Moisture-proof, Tamper-evident
Frame Material	Durable Metal

Key Features

Adjustable Settings

- Sealing Temperature
- Sealing Time

Applications

Suitable Industries

Food Packaging • Pharmaceuticals • General Industrial
