

Four-Burner Gas and Electric Hob with Stainless Steel Surface

This hob features a stainless steel surface for easy cleaning. It combines powerful blue flame gas burners with an electric heating element.

ADDITIONAL IMAGES

Overview

A versatile hybrid hob featuring three gas burners and one electric heating element for maximum cooking flexibility.

Versatile Hybrid Cooking Solution

This high-quality four-burner hob combines the rapid heating of gas with the precision of electric cooking, all set on a durable stainless steel surface. Featuring Sabaf blue flame technology, it ensures high efficiency and low gas consumption to save time and money. Designed for modern professional kitchens, it offers a sleek aesthetic coupled with robust cast iron supports for long-lasting performance.
