

Four-Lamp Infrared Bathroom Heater

This bathroom heater features four lamps for efficient and rapid heating. The unit is designed for ceiling mounting to provide both warmth and illumination.

Overview

Efficient Bathroom Climate Control

This four-lamp infrared bathroom heater provides a versatile solution for residential bathroom comfort, combining heating, lighting, and ventilation in a single ceiling-mounted unit. Designed for efficiency, the system offers rapid infrared warmth while ensuring proper air circulation with an airflow capacity of up to 240m³/H. Its clean, white aesthetic and compact design make it an ideal choice for modern bathrooms ranging from 10 to 20 square meters.
