Product Overview

HVAC Definite Purpose Contactor

This four-pole magnetic contactor is engineered for reliable performance in HVAC, air conditioning, and refrigeration systems. Designed for demanding environments, it supports a versatile control voltage range of 24-277V AC and is rated for 25 amps. Its robust construction ensures consistent switching for compressors, fans, and other essential electrical components.

Technical Specifications

Rated Current

25 A

Rated Current

Number of Poles

4

Control Voltage Range

24-277V AC

Common Applications

HVAC, Air Conditioning, Refrigeration, Compressor Control, Fan Control

Service & Quality

Quality Control

- 100% self-inspection
- Testing before packing

Service Policies

Policy Type	Details
Samples	Available (shipping costs apply)
Customization	OEM and ODM available
Quality Assurance	Replacement for quality issues
Lead Time	15-20 days after deposit
Payment Terms	30% deposit, balance against B/L
