

Four-Stroke Gasoline Generator

This four-stroke gasoline generator is designed for reliable power in various applications. It features a robust engine with a recoil start system for easy operation.

Overview

Reliable Power Generation

This four-stroke gasoline generator is engineered to provide consistent and reliable power across a variety of demanding applications. Featuring a robust engine architecture and a user-friendly recoil start system, it ensures dependable performance when you need it most. The unit delivers stable voltage and frequency output, making it safe and suitable for powering both heavy-duty tools and sensitive electronic equipment.

Technical Specifications

Engine Type	Four-Stroke Gasoline
Starting System	Recoil Start

Key Features

Durability & Construction

- Robust engine design
- Durable protective frame
- Stable voltage output
- Stable frequency output

Applications

Ideal Use Cases	Construction Sites, Emergency Power Backup, Outdoor Activities, Sensitive Electronics
