

Freestanding Hot and Cold Water Dispenser with Storage

This water dispenser is a freestanding appliance that provides both hot and cold water. It features a durable white plastic exterior and a storage compartment at the base.

Overview

Convenient Hydration Solution

This freestanding water dispenser provides instant access to both hot and cold water, making it an essential addition to any office or breakroom. Its durable white exterior ensures a clean, professional look, while the integrated base storage compartment offers practical space for supplies. Designed for ease of use, it features intuitive dispensing taps and clear indicator lights to monitor water status.
