

Freestyle BMX Bike with Steel Frame

This BMX bike is designed for freestyle riding and performing tricks. It features a durable steel frame for strength and stability, along with a single-speed drivetrain for simplicity.

Product Overview

Built for Freestyle Performance

The Starlight BMX is engineered for riders who demand durability and agility during freestyle tricks and stunts. Its high-strength steel frame ensures maximum stability and impact resistance during intense sessions. Featuring a simplified single-speed drivetrain and responsive steering geometry, this bike offers a reliable platform for both beginners and experienced riders to hone their craft.
