

Front End Loader Tractor

This tractor is a robust and versatile machine designed for various agricultural and construction tasks. It features a front-end loader for material handling, a powerful engine for reliable performance, and a sturdy chassis for durability.

Overview

Versatile Front End Loader Tractor

This front end loader tractor series is engineered for efficiency in agricultural, landscaping, and light construction environments. Designed with a robust chassis and high-traction tires, the machine offers reliable material handling capabilities across diverse terrains. With multiple configurations ranging from 25hp to 40hp, operators can select the ideal power-to-weight ratio for their specific workload requirements.

Performance Metrics

Key Performance Indicators

40 hp

Max Tractor Power

881.8 lb

Max Carrying Capacity

86.6 in

Lift Height

Technical Specifications

Model Specifications

Specification	LDCF254K-QS	LDCF284K-QS	LDCF354K-QS	LDCF404K-QS
Tractor HP	25hp	28hp	35hp	40hp
Structure Weight	903.9lb	958.9lb	958.9lb	958.9lb
Bucket Width	53.9"	59.8"	59.8"	59.8"
Bucket Cubage	0.2m3	0.22m3	0.22m3	0.22m3
Carrying Capacity	837.7lb	881.8lb	881.8lb	881.8lb
Lift Height	86.6"	86.6"	86.6"	86.6"
Dump Clearance	47.6"	47.6"	67.7"	72.8"
Digging Depth	3.9"	3.9"	5.5"	3.9"

Operational Angles

Operational Angles

- Crowd Angle: 35°
- Dump Angle: 60° - 70° (Model Dependent)
