

Fruit and Vegetable Washing Machine

This fruit and vegetable washing machine uses advanced technology to remove dirt, pesticides, and bacteria. It features a transparent container and digital control panel for easy monitoring and operation.

Product Overview

Advanced Produce Cleaning

This fruit and vegetable cleaning machine utilizes advanced technology to effectively remove dirt, pesticides, and bacteria from produce. It features a transparent container for easy monitoring, a digital control panel for setting the cleaning time, and a compact design for convenient storage. The device is designed for ease of use and maintenance, making it an ideal addition to any kitchen focused on healthy eating.

Technical Specifications

Rated Voltage	220 V
Rated Frequency	50 Hz
Rated Power	10 W
Ultrasonic Frequency	40 KHz

Capacity and Dimensions

Volume	10 L
Product Size	330 x 270 x 310 mm

Logistics

Packaging Options	Gift box packing, Master Carton box packing
-------------------	---
