

Fuel Dispenser for Gas Stations and Industrial Use

This fuel dispenser is designed for accurate and reliable fuel dispensing in various applications. Its robust construction and advanced metering technology ensures precise measurement and delivery of fuel.

Product Overview

Professional Fuel Dispensing Solution

The SK10 Fuel Dispenser is a precision-engineered device designed for accurate and reliable fuel management. Featuring robust construction and advanced metering technology, this unit ensures precise delivery for gas stations, fleet operations, and industrial settings. Its user-friendly interface and compact design allow for easy installation, consistent performance, and streamlined maintenance.

Technical Specifications

Key Features

- Electronic calibration
- Advanced metering technology
- Secure data logging
- Multiple hose options

Design Advantages

Compact Design • User-Friendly Interface • Robust Construction

Application & Suitability

Suitable Environments

Gas Stations, Fleet Fueling, Industrial Settings
