

Fuel Injection Nozzle for Diesel Engines

This fuel injection nozzle is designed for diesel engines. It ensures optimal fuel atomization and efficient combustion, leading to improved engine performance and reduced emissions.

Product Overview

High-Performance Diesel Fuel Injection Nozzle

This fuel injection nozzle is precision-engineered for diesel engines, ensuring optimal fuel atomization and efficient combustion. Designed to meet stringent quality standards, it contributes to improved engine performance, reduced emissions, and enhanced fuel economy. These components are suitable for various diesel engine applications, offering a reliable alternative for maintenance and replacement needs.

Technical Specifications

Body Material	Steel
Compatible Fuel	Diesel
Weight	0.04 kg
Carburettor Type	Downdraft
Cylinder Compatibility	Multi-cylinder
HS Code	84099199

Compliance & Quality

Certifications	ISO9001, TS16949
Warranty Period	6 Months

Compatibility Reference
