

Fuel Injection Parts for Marine Diesel Engines

Fuel injection parts are available for all engine types, especially European and Japanese models. These tested parts ensure efficient fuel delivery and combustion for enhanced engine performance and reduced emissions.

Product Overview

Marine Diesel Fuel Injection Components

These high-quality fuel injection valve assemblies are engineered for reliable performance in large marine diesel engines. Each assembly includes essential components such as the spindle guide and nozzle, ensuring efficient fuel delivery and optimal combustion. All parts undergo rigorous testing to meet professional maritime standards, providing a dependable solution for engine maintenance and repair.

Compatibility

Supported Engine Series

S42MC-C, S46MC-C, S50MC-C, S50ME, S60MC-C, S70MC-C, S40ME-B9

Inventory

Available Fuel Injection Valve Assemblies

Engine Model	Drawing Number	Stock Quantity
S42MC-C	1135412-0.0	142
S46MC-C	1169925-9.0	40
S46MC-C	5148467-6.1	30
S50MC-C	3069281-2.7	80
S50ME	5284623-3.0	20
S50MC-C	5067428-2.0	4
S50MC-C	5067428-2.1	16
S60MC-C	5035997-2.3	40
S60MC-C	5088291-5.3	20
S60MC-C	5130158-5.2	20
S60MC-C	3152349-4.2	14
S70MC-C	1221630-1.2	20
S70MC-C	5030363-0.1	20
S40ME-B9	5088187-4	8

Quality Assurance

Quality Commitment

- Rigorous pre-sale testing
- OEM-standard manufacturing quality
- Individual component availability (Spindle guides and nozzles)
