Product Overview

High-Performance Fuel Injector Assembly

This fuel injector assembly is specifically engineered for CAT C6.4 excavator engines to ensure reliable operation and optimal fuel efficiency. Manufactured using high-speed steel, it meets or exceeds OEM standards for durability in demanding construction environments. The assembly features precision-engineered components that facilitate accurate fuel delivery and atomization, contributing to consistent engine performance and reduced emissions.

Technical Specifications

Precision-engineered fuel injector assembly for CAT C6.4 engines.

Part Number	326-4700
Material	High speed steel
Component Type	Fuel Injector

Logistics & Availability

Stock Status

In Stock

Accepted Payment Methods

- T/T
- Western Union
- MoneyGram
- PayPal

Shipping Options

DHL, FedEx, UPS, TNT, EMS, ARAMEX, Air Freight

Packaging

Neutral packing or customer specified packaging
