

Fuel Injector for Peugeot 405

This fuel injector is designed for Peugeot 405 vehicles. It ensures optimal fuel delivery for efficient engine performance and is a direct replacement part.

Product Overview

High-Performance Fuel Delivery

This fuel injector is engineered to provide precise fuel delivery for optimal engine performance and efficiency. Designed as a direct replacement component, it ensures compatibility and ease of installation for specific vehicle models. The unit is built to maintain consistent fuel spray patterns, contributing to smoother engine operation and reliable vehicle performance.
