

Fuel Tank for Small Engines

This fuel tank is suitable for small engine applications like lawnmowers and generators. The tank is made from durable material and includes a filler cap.

Product Overview

High-Durability Small Engine Fuel Tank

This fuel tank is engineered for reliable use in various small engine applications, including lawnmowers, generators, and outdoor power equipment. Constructed from high-quality, durable materials, it is designed to withstand the rigors of frequent operation. Its streamlined design ensures easy mounting and seamless integration into existing engine systems.

Technical Specifications

Color

Red

Component Type

Fuel Tank

Compatibility

Lawnmowers, Generators, Small Engines
