

FUJI IP3 2.5mm SMT Nozzle

This SMT nozzle is designed for FUJI IP3 placement machines, ensuring accurate component placement. Its 2.5mm size makes it suitable for a variety of SMT applications.

Product Overview

High-Performance SMT Nozzle

This 2.5mm nozzle is precision-engineered for use with high-speed surface mount technology placement systems. Constructed from high-quality, durable materials, it ensures consistent performance and reliability during component assembly. Designed for high-speed operation, this nozzle is an essential component for maintaining optimal placement efficiency in demanding production environments.
