

Full Face Protective Helmet

This full helmet offers comprehensive head protection. It features a durable outer shell and a clear, wide visor for enhanced visibility.

Product Overview

Professional Full Face Protection

This full face protective helmet is engineered for durability and rider comfort, featuring a robust ABS shell construction. It integrates an advanced channeling ventilation system and a plush, removable interior to ensure a pleasant experience during extended use. Designed with safety and convenience in mind, it includes a quick-release visor mechanism and a secure micrometric buckle system.
