

Full Suspension Mountain Bicycle

This full suspension mountain bicycle is equipped with knobby tires and a multi-speed drivetrain. It is designed for recreational or off-road cycling.

Overview

Built for Rugged Terrain

This full suspension mountain bicycle is engineered for versatile off-road performance and recreational cycling. Featuring a robust frame design with integrated front and rear suspension systems, it effectively absorbs shocks on uneven surfaces. The bike is equipped with high-traction knobby tires and a multi-speed drivetrain to handle varied terrain with confidence.
