

# Full Thread Hex Head Bolts

These hex head bolts feature a full thread design for maximum grip and secure fastening. Manufactured to meet ISO4017 standards, they are suitable for use in machinery, construction, and automotive applications.

## ADDITIONAL IMAGES

## Overview

### High-Performance Full Thread Hex Bolts

These full thread hex head bolts are engineered for demanding industrial and construction applications, offering robust fastening solutions. Manufactured through cold heading or hot forging processes, they ensure structural integrity and reliability. Available in a wide range of materials, grades, and finishes, these bolts are designed to meet international standards including ISO, DIN, and ANSI requirements.

## Standards & Compliance

### Quality Certification

ISO 9001:2008

### Supported Standards

DIN, ISO, ANSI, ASME, BS, AS, JIS

## Technical Specifications

### Material Options

- Low carbon steel
- Alloy steel (35k, 45#)
- 40Cr
- 35CrMoA
- 42CrMoA

### Size Range

**8 M**

Min Diameter

**42 M**

Max Diameter

**6 mm**

Min Length

**420 mm**

Max Length

### Surface Finishes

- Plain
- Black oxidized
- Zinc plate (white, blue, color)
- Hot dip galvanized
- Chrome

### Strength Grades

8.8, 10.9, 12.9

## Logistics & Supply

### Supply Ability

800 tons/month

### Lead Time

7-30 days

### Standard Packaging

25kg per carton, 36 cartons per pallet
