

Gasoline Engine Water Pump

This water pump is a portable and efficient solution for various water transfer needs. Powered by a gasoline engine, this pump delivers reliable performance for irrigation, drainage, and general water pumping applications.

Product Overview

Versatile Gasoline Water Pump

The WP10C is a portable, high-efficiency water pump designed for agricultural, construction, and domestic water transfer needs. Powered by a reliable 2-cycle gasoline engine, it offers a robust solution for irrigation and drainage applications. Its compact, lightweight construction ensures durability and easy transport, making it an ideal choice for demanding outdoor environments.

Performance Metrics

Key Performance Indicators

2 HP

Max Output

12 cbm/h

Max Flow Rate

26 m

Max Head

Technical Specifications

Engine Specifications

- Model: 1E40F-6
- Displacement: 40.7cm³
- Oil/Gasoline Mix Ratio: 1:25
- Ignition System: CDI
- Starting System: Recoil start

Operational Data

- Pipe Diameter: 1 inch (25.4mm)
- Max Suction: 6m
- Self-priming Time: 80s/4m
- Fuel Tank Capacity: 850cm³

Logistics & Packaging

Dimensions and Weight

Attribute	Value
Net Weight	6.5 kg
Gross Weight	7 kg
Packing Size	350*240*310mm

Shipping Capacity

Container Type	Quantity
20ft FCL	1356 pcs
40ft FCL	2810 pcs
