

Gasoline Plate Compactor with Folding Handle

This gasoline plate compactor features a folding handle, facilitating convenient transportation and storage. Its open plate design promotes self-cleaning, while the sealed belt cover prevents sand and soil ingress.

Product Overview

High-Performance Gasoline Plate Compactor

This gasoline-powered plate compactor is engineered for superior compaction performance in construction and landscaping projects. Featuring a robust engine and durable steel plate, it delivers high impact force with low vibration, ensuring efficient consolidation of granular soils and asphalt. The design includes a folding handle for convenient transportation and storage, making it an ideal choice for professional site preparation.

Technical Specifications

Engine Performance

196 cc

Displacement

6.5 HP

Power

Compaction Capabilities

Metric	Value
Centrifugal Force	25000 N
Exciter Speed	5500 vpm
Compaction Depth	35 cm
Travel Speed	32 m/min

Design & Build

The plate compactor is compatible with optional accessories like a water sprinkler kit for dust control and a paving pad kit for delicate surfaces.

Physical Dimensions

560 mm

Plate Length

520 mm

Plate Width

108 kg

Operation Weight

Key Features

- Folding handle for easy transportation and storage
- Open plate design for self-cleaning
- Sealed belt cover to prevent sand and soil ingress
- Low vibration system for improved operator comfort

Available Accessories

Water Sprinkler Kit, Paving Pad Kit
