

Gasoline Powered Brush Cutter

This brush cutter is powered by a gasoline engine and designed for trimming grass, weeds, and small brush. It features a two-stroke engine with a recoil start system, a nylon line cutting head, and a metal blade.

Product Overview

High-Performance Gasoline Brush Cutter

This gasoline-powered brush cutter is engineered for efficient trimming of grass, weeds, and small brush in both residential and commercial environments. It features a reliable 2-stroke, 1-cylinder air-cooled engine delivering 1.2HP for consistent performance. Designed with operator comfort in mind, the unit includes an adjustable handle and shoulder strap to assist with weight distribution during extended use.
