

Gasoline Powered Brush Cutter

This gasoline-powered brush cutter is designed for clearing overgrown vegetation, brush, and small trees. It features a two-stroke engine for high power and efficiency.

Overview

Professional Performance

This gasoline-powered brush cutter is engineered for demanding landscaping, forestry, and agricultural tasks. It features a robust two-stroke engine designed for high power output and operational efficiency. The unit is equipped with a durable metal blade capable of clearing thick vegetation, brush, and small trees with ease.

Technical Specifications

Engine Type	Two-stroke
Cutting Tool	Metal blade

Ergonomics & Design

Key Features	Ergonomic handle, Shoulder strap, High power, High efficiency
