

Gasoline Powered Brush Cutter

This gasoline-powered brush cutter is designed for trimming grass, weeds, and brush. It features a two-stroke engine, a cutting head with nylon line or metal blades, and a long shaft with a handle for comfortable operation.

Product Overview

High-Performance Gasoline Brush Cutter

This powerful gasoline brush cutter is designed for efficient maintenance of lawns, gardens, and dense brush. It features a reliable 2-stroke, air-cooled engine capable of delivering 1.45kW of power, making it suitable for both professional and domestic landscaping tasks. With a versatile cutting system that accommodates both metal blades and nylon cutters, it offers the flexibility needed for various vegetation types.
