Product Overview

High-Performance Gasoline Chain Saw

This gasoline-powered chain saw is engineered for durability and reliability, offering a versatile range of engine displacements to suit various cutting requirements. Designed with a high-precision carburetor and an efficient air filtration system, it ensures consistent power delivery and low fuel consumption. The ergonomic, anti-slip handle and easy-start mechanism are built for operator comfort and long-term professional use.

Technical Specifications

Available Engine Displacements	25cc, 38cc, 45cc, 52cc, 58cc, 62cc
Fuel/Oil Mixing Ratio	1:25

Key Features

Performance Highlights

10000 cycles

Starter Pull Durability

2 max

Start-up Pulls

Usability & Design

- High precision carburetor for low fuel consumption
- Easy to start in high-temperature environments
- Paper air filter with reliable sealing for easy cleaning
- Soft anti-slip handle for efficient and comfortable operation
- Outside silicone pump for rapid starting
